Paperboat Signal Hub

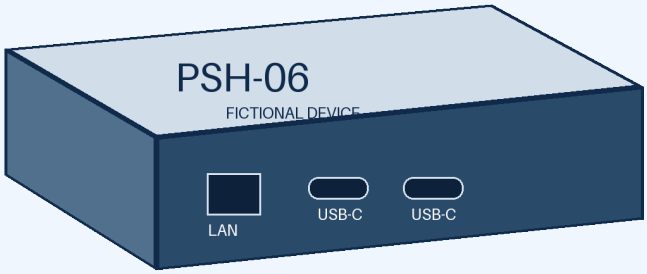

Signal recording for training

PSH-06

FICTIONAL HARDWARE

Record signals Understand data

Organize signals, records, and export workflows for training.

SYNTHETIC TEST DIAGRAM - NOT A REAL PRODUCT

6 channels
Example recording channels

32 GB
Example internal storage

30 s
Example recording interval

Application scenarios

Classroom training
Demonstrates the basic recording workflow.

Device workshop
Explains interfaces and storage.

Product demonstration
Shows the fictional device workflow.

Layout testing
Checks bilingual document layouts.

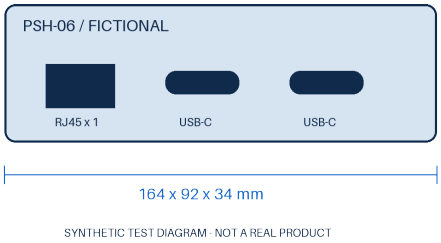

Fictional example
All product facts and diagrams are synthetic template test data.

Hardware & system capabilities

PSH-06

Desktop format for demonstrations

The illustrated ports match the fictional specification. Powered by 5 V DC.

SYNTHETIC TEST DIAGRAM · NOT A REAL PRODUCT

Technical specifications

Recording channels	6 channels
Internal storage	32 GB; no options specified
Recording interval	Records every 30 s
Network interface	1 RJ45 port
USB interfaces	2 USB-C ports
Record capacity	At most 4096 example records
Power input	5 V DC / 2 A
Example consumption	7 W
Operating temperature	0 °C to 45 °C
Dimensions	164 mm × 92 mm × 34 mm
Weight	0.48 kg

Key Features

Recording demo

Saves example signals at a fixed interval.

Status review

Shows recent records and remaining capacity.

File export

Exports the currently selected records.

Local operation

Runs offline in a training environment.
