Perch Label Checker

Product Specification

PLC-03

Product Overview

Perch Label Checker is for training simulation only. It is used for classroom explanations and label layout practice, and demonstrates label sequence checking and status clearing only.

Label-check positions	Single simulated batch	State retention
3 positions	24 labels	120 s

Hardware and dimensions

PLC-03

Simulation configuration

Parameter	Specification
Label-check positions	3 positions
Single simulated batch	24 labels
Memory	64 MB
State retention	120 s

Power supply and consumption

Parameter	Specification
Power supply	9 V DC / 1 A
Example power consumption	4 W

Dimensions and operating environment

Parameter	Specification
Dimensions	110 × 70 × 25 mm
Weight	0.22 kg
Operating temperature	10 °C to 35 °C

Features and applications

Key Features

• Label sequence checking: Demonstrates label sequence checking.

• Status clearing: Demonstrates status clearing.

Application scenarios

Area	Example applications
Classroom explanations	For classroom explanations in training simulations.
Label layout practice	For label layout practice in training simulations.
